The Haro Channel.

Several gentlemen interested in British Columbia have been writing to the London Times aneat the San Juan boundary question. The agent-general of British Columbia, Mr. G, M. Sproat, in a letter to that journal of lieving that it is no use crying over spilt milk, and bowing to the decision of the arbitration, he neverless shows the absurdity of the Haro Channel being fixed as a boundary, and with what reason the people of that Province have reason to be dissatisfied with the award. One significant remark he makes: The future of Canada on the Pacific cannot be said to have been decided at Berlin." This is true; the award may hamper the marine traffic of Vancouver, but it cannot prevent that Island and the adjacent continent from resumed consideration of bridge and trail vince. Its situation, its connection with the making in these districts, during last summer, and to have furnished you with a tabular East, all conspire to make it one of the most. The Globe is entitled to hold any opinion it statement of the amount of work per-formed as constrasted with the expenditure ditions like these exist, it is not trifles, like other question; we claim a like privilege for in connection therewith; but to tell you the the loss of San Juan, which will stand in the ourselves. Should the Globe choose to differ truth, sir, after cautiously and carefully trimming a Dr. and Cr. account I found in the phraseology of 'Pat' that we have gained a loss by the transaction. And, as the set-

The San Juan Arbitration.

[From the Toronto Mail.] It is matter for regret that the opinions of the experts to whom the Emperor William submitted the San Juan question have been locked up in the public archives in Berlin instead of being given to the world with the to make it palatable. The Berlin correspondthe United States and Great Britain that the Middle Channel should be chosen as the bouied down to a choice between the most east-Bound to declare which, in his opinion, was of the vagueness of the wording of that in

The steamer Emma also sailed for Nanaimo at an early hour yesterday morning.

Although it may seem to be somewhat out of the luck of British journalistic comment on this question, we are free to say that, in our judgement, there is no substantial injustice unflicted on Great Britain in giving to the Straits to-day on their way to and from United States the whole San Juan Archipela-go. Any one who looks at a map of the country will understand our meaning. The British interests on the Pacific coast are in they become disgusted and broken in spirit, disappear across the line, and we see them ed States; were this parallel line carried due west to the Pacific Ocean, it would give to Vancouver Island. Of course such a division could not be thought of, and as the greater part of the Island lies to the north of the 49th parallel, the lesser part went with the greater If then the boundary line deflected to the south in order that Vancouver Island might go wholly to Great Britain, it seems to us to be in no way unreasonable that the Americans should claim that the nearest waters to Vanconver Island constituted the boundary line which was most just to them. While we say this much, however, we cannot but express dealers in British our regret that the Imperial arbitrator was rious imitations. not free to select the Middle Channel. to Great Britain. So was the Maine B undary, in the opinion of many. But it is pure silliness to dispute a recognition of their justice in determining such a point as that which the Emperor of Germany has just settled. "There is no good crying over spilt milk." Taking the 49th parallel as the real boundary line, we repeat what we have already said, been free to do as he pleased, the selection of the Canal de Haro is no injustice to Great Britain, inasmuch as the boundary line would never have deflected south of the 49th parallel, except to give to Great Britain the southern

part of Vancouver Island. Rev. Mr. Browning, the positive statment that with San Juan in the hands of the Americsns, freedom of navigation need be in no way impeded. Victoria, the chief port of Vancouver Island, may be reached by vesaward. Although the award has gone against sels sailing from New Westminster or Burus, there are a few considerations which belp rard inlet, on the mainland, by way of Plumto make it palatable. The Berlin correspondent of the Daily News is authority for the largest class; Mr. Browning tells us he has statement that the experts recommended to gone through the Pass in a vessel of 2,000 tons burden. WONDERFUL CURE OF ASTRMA OF 18 YEARS

To Professor Holloway.

Sir,-I suffered from asthma for 18 years, accompanied with great difficulty of breathing, and severe cough with spit-ting of blood. I was also afflicted with Piles. At different times I was treated by most skilful physicians, and was at length pronounced by them to be beyond cure; - as a last resource, I was induced to use your Pills and Olutment, and in the short space of a fortnight could walk shout, and am now perfectly cured, to the astonishment of all who knew me.

BLOOD TO THE HEAD WITH GIDDINESS. Copy of a letter from Mrs. Mary Foster, Haif Moon Street, Tolness, dated March

16th 1861.

To Professor Holloway.

Sir, -For many years I suffered periodically headache, and giddiness in the head, to such a degree that at times. I have scarcly been able to walk; after obtaining the best medical advice without effect, I tried your Pills and in less than a week' was completely cured. Mrs. Donnal, Chemist, of Totness, can vouch for the truth of the above statement.

COMPLAINTS OF WOMEN AND CHILDREN. The very mild and painless action of these invaluable Pills, recommends them to every household as a remedy for the early departures from bealth. Any mother, nurse, or young person guided by the direction which accompany each box of Holleway's Pills, has at once available means for checking disease, qualifying the blood, and expelling from the system all gross homors. They are, indeed, at all ages, the tried femules friend.

DISORDERS OF THE KIDNEYS & OTHER IM-

TERNAL ORGANS Loss of appetite and flatulency are sually the forerunners of stomachic dis-These famous Pills exercise the most salutary power in all affections of the liver, and irregularities of the stomach and bowels; they restore a healtny func-tion to every internal or gan, overcome all obstructions, and cast out all impu-

THE ACTION OF THE KIDNEYS & OTHER IN-

TERNAL ORGANS. The immediate loss of muscular strength and nervous energy is more particularly remarkable in renal than in most other diseases. Their deficient action for one day suffices to produce fever, hence the necessity for prompt and efficient treatment. Holloway's Pills have the great merit of restoring any suspended or di-minished secretion, and of relieving any inflammation or congestion in the spleen, kidneys, or other subsidiary organs.

The tight, suffocating, anxious feeling caused by derangement of the beart, makes the sufferer look on present death as imminent. Holloway's Pills prove an efficient and ready remedy when the dis-sturbed circulation depends on indigestion flatulency, or debilitated nervous vigor. Persons suffering from disturbance of the beart should take about six of these Pilla two or three times a week, according to circumstances, to arrest the too active action of the heart.

WEAKNESS, LANGOUR AND DEBILITY. These famous Pills will immediately remove all symptoms of debility, langour and weakness as they act upon the main springs of life, and thus save thousands from premature grave.

Holloway's Pills are the best remedy known in the world for the following diseases an Inflammation Jaundice
